

DOOR SYSTEMS

March 3, 2009

*To Whom It May Concern:*

This is a personal working reference written on behalf of Eugen Luca.

He provided us with the system design and the technical solution needed to improve our painting process. We've worked with Eugen on designing and installing a Promix-II automated system at our facility.

We have also requested Eugen's help with repairing, troubleshooting and maintenance. He provided timely and professional services.

Our overall experience with Eugen's workmanship and work ethic is very positive. We would like to continue using his services and expertise in the future if the opportunity arises.

A handwritten signature in dark ink, appearing to read "Manish Shah".
